

A better way to R&D ?

- ⇒ Lack of resources or time to innovate?
- ⇒ A technological roadblock to clear?
- ⇒ Want to overtake the competition?
- ⇒ A new business to launch?

What if
researchers
helped you?

Conectus is your direct
contact for building
a collaboration with
Alsatian public research
laboratories

Exceptional scientific
skills and equipment
to boost your
business!

WHAT HAPPENS NEXT?
IT'S ON THE BACK ! >>

4

benefits for your company:

Optimize your
R&D costs

Accelerate your
R&D projects

Reduce your
R&D risks

Get ahead of
your competition

HOW does it works?

1. We discuss your R&D challenges in total confidentiality
2. We identify the researchers, laboratories or platforms who can help you and put you in touch with them
3. We co-build the partnership project
4. We are your negotiating partner and set up the partnership contract
5. We remain your privileged contact during and after the project execution

Double your tax credit!

If you are taxable in France and incur R&D expenses with a public laboratory, you can double your tax credit until the end of 2021 (under conditions).

Reduce your staff costs

Thanks to the plan *France Relance*, if you are cooperating with a public research lab, you can benefit from a partial coverage (from 50% to 80%) for the salaries of the R&D staff involved in the project.
